XCHANGE FILE CLOUD

Share and sync your files across the fleet

MARLINK
ABOVE AND BEYOND

Distribute huge amounts of files between ship and shore, with our simple solution

XChange File Cloud is the ideal, easy-to-use solution to share and synchronise files of any size and type throughout the fleet. Automation reduces administration and XChange File Cloud's optimised transmission minimises the impact on bandwidth, so you can improve efficiency and have the peace of mind that your files are up-to-date and secure.

With XChange File Cloud you can distribute huge amounts of files from a central location, with no interruption to business communications. Access is by authorised users only, so you can be confident that your data is secure. File transmissions are automatic, so content is mirrored between ship and shore without the need for manual intervention.

XChange File Cloud customers transfer a combined volume of 180GB of documents and files every month

How XChange File Cloud can help you

Share and synchronise files of any type or size across the entire fleet, without disturbing business communications

Benefit from **best use of bandwidth.** Files and folders are compressed on the fly and prioritised to ensure optimal transmission

Save money and automate: XChange File Cloud is a very affordable solution and its automisation eliminates the need for manual intervention

Optimise procedures without the need for user licence management and receive status reports automatically with no extra equipment or applications required

Collect and retrieve all types and quantities of files from each vessel to monitor activity and stay in closer contact

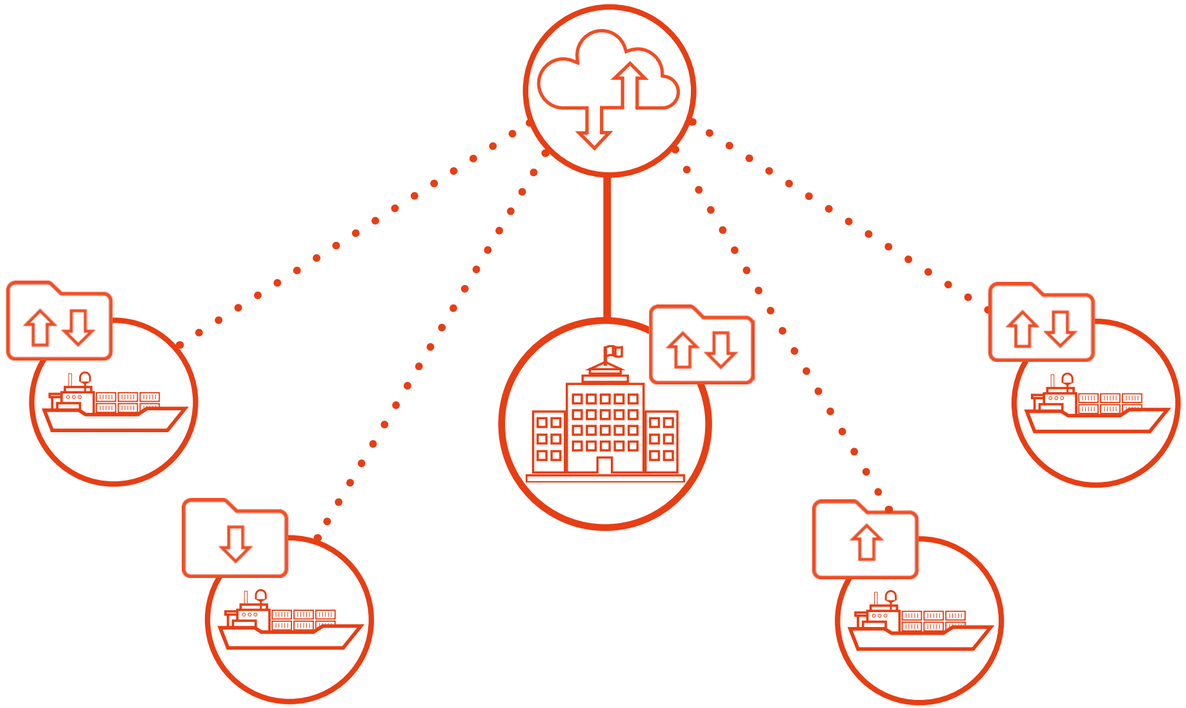

Secure your data with XChange File Cloud's closed ecosystem and set access rights for staff and crew

Reduce administrative effort. XChange File Cloud is a simple solution to use and manage, with a robust archive feature and automatic file synchronisation

Manage your company internal **document databases** with ease, setting access permissions as needed. Keep crew up to date with latest company guidelines and other important information.

Point to multipoint transmission of data between shore and your fleet

XChange File Cloud is a simple solution to share:

- Large files, such as videos, audio files and images
- Reports & logbooks
- Preventive maintenance information
- Crew safety and awareness documents
- Backup data
- Purchase orders
- HR documents and timesheets
- Application data and databases
- Accounting reports

Your partner who goes **Above and Beyond**
